## SENIOR TECHNICAL PROGRAM MANAGER | PROJECT MANAGER

Results-driven Senior Technical Program Manager with 15+ years leading complex technology programs for Fortune 500 companies in financial services, insurance, and enterprise technology. Proven track record delivering large-scale cloud migrations, system integrations, and platform modernizations with cross-functional teams of 50+ engineers across global time zones. Deep expertise in Agile (Scrum, SAFe, Kanban) and Waterfall methodologies with strong technical background in cloud platforms (AWS, GCP, Azure), CI/CD, and enterprise systems. Exceptional communicator who simplifies complex technical challenges for executive stakeholders. Quantifiable impact: \$1.2M+ cost savings, 25% uptime improvement, 98% on-time delivery, and zero production incidents.

### CORE COMPETENCIES

- Program & Project Management: Full SDLC ownership, program roadmapping, scope/schedule/budget management, risk mitigation, dependency tracking, vendor coordination
- Technical Delivery: Cloud migrations (AWS, GCP, Azure), system integrations, platform modernization, ERP implementations, data platform development
- Methodologies: Agile (Scrum, Kanban, SAFe), Waterfall, Hybrid, PI Planning, sprint management, release coordination
- Stakeholder Management: Executive reporting, client-facing delivery, escalation management, cross-functional collaboration, vendor management
- Tools & Platforms: JIRA, Confluence, ServiceNow, MS Project, Azure DevOps, Jenkins, GitHub, Terraform, Docker
- Compliance & Governance: Regulatory compliance (MiFID II, SOX, GDPR), audit readiness, change management, ITIL practices

### PROFESSIONAL EXPERIENCE

#### Senior Technical Program Manager / Delivery Manager

*DXC Technology – Global Insurance Platform | Jun 2025 – Present*

Leading enterprise platform modernization program for global insurance broker, managing AWS cloud migration and UI transformation across distributed teams in US, UK, and India.

- Direct cross-functional program delivery across 5 Agile teams (60+ engineers), facilitating PI Planning, managing dependencies, and driving RAID management
- Lead AWS cloud migration implementing microservices architecture with ECS, Lambda, and Terraform achieving 30% improvement in delivery velocity
- Manage Angular platform modernization (v10→v18) coordinating frontend, backend, and DevOps teams ensuring on-time delivery
- Establish program governance frameworks, status reporting cadence, and escalation protocols for executive stakeholders
- Coordinate vendor teams and internal resources, tracking milestones, managing risks, and ensuring deliverables meet quality standards
- Facilitate weekly executive steering meetings across global time zones maintaining stakeholder alignment and transparency

#### Senior Technical Program Manager

*Luxoft USA (Deutsche Bank) | Feb 2020 – Jun 2025*

Directed enterprise-scale technology programs for Deutsche Bank's Cash Equities division across 15 countries, managing cloud migrations, regulatory platforms, and M&A integrations with teams of 50+ engineers.

*Cloud Migration & Platform Development:*

- Led Deutsche Bank's first GCP cloud migration (15 applications, 50+ microservices) using Terraform and Docker, achieving 25% uptime improvement and \$1.2M annual savings
- Architected data platform processing 200TB+ with real-time analytics, batch processing, and ML-ready datasets
- Implemented CI/CD pipelines (Jenkins, GitHub Actions) improving deployment frequency 3x while reducing incidents 50%

#### ***M&A Integration & System Consolidation:***

- Directed DB-Fidessa merger integration across 8 asset classes and 15 countries coordinating 100+ person cross-functional team
- Managed end-to-end program lifecycle: requirements, testing strategy, UAT coordination, cutover planning achieving 98% SIT success with zero downtime
- Established dependency tracking and risk management frameworks adopted across Technology division

#### ***Regulatory Compliance & Governance:***

- Delivered MiFID II, CAT, EMIR regulatory reporting platforms with 100% audit success and zero compliance violations
- Automated release management via ServiceNow reducing preparation time from 4 hours to 15 minutes
- Partnered with Legal, Compliance, Risk teams ensuring all technical solutions meet regulatory requirements

#### **Technical Program Manager**

*Luxoft Poland (UBS Bank) | Jan 2016 – Jan 2020*

Managed technology programs for UBS investment banking division including infrastructure modernization, analytics platforms, and automation initiatives.

- Led infrastructure modernization migrating 13,000+ SharePoint sites and 80+ applications to cloud-based architecture achieving 99.2% data integrity
- Delivered risk analytics platform (CVA/CE) using Python reducing computation time from 4 hours to 30 minutes (88% improvement)
- Managed vendor consolidation program (12→4 vendors) reducing overhead 40% while improving service quality
- Coordinated cross-functional teams across Product, Engineering, Risk, and Operations in waterfall and hybrid delivery models
- Implemented Clarion automation reducing manual interventions by 50% and accelerating response times

#### **Senior Project Manager**

*Luxoft Europe | Oct 2013 – Mar 2016*

Managed enterprise technology projects for Fortune 500 clients across energy, retail, and pharmaceutical sectors.

- Delivered Lukoil global collaboration portal serving 25,000+ users across 12 countries using SharePoint/C#
- Led PepsiCo SAP/Ariba procurement platform integration across 15 markets managing end-to-end implementation
- Managed FDA-compliant workflow system for Brookfield accelerating regulatory approvals by 20%
- Coordinated Pfizer intranet development enhancing corporate collaboration and workflow visibility
- Facilitated executive workshops aligning technical delivery with business objectives across multiple stakeholders

## **EDUCATION**

MSc in Computer Science – Moscow State University of Instrument Engineering

Master's in Management (MBA I) – Presidential Program

## CERTIFICATIONS

- SAFe Product Owner / Product Manager (POPM) – Scaled Agile (2025)
- Professional Scrum Master I (PSM I) – Scrum.org (2016)
- Google Cloud Architect (2020) | Cloud Digital Leader (2024)
- Agile Program Manager (2024)

## KEY PROGRAM ACHIEVEMENTS

- GCP Cloud Migration (Deutsche Bank): 15 apps, 50+ microservices migrated; \$1.2M annual savings, 25% uptime improvement, 50% faster releases
- M&A Integration (Deutsche Bank): Unified platforms across 8 asset classes, 15 countries; 98% SIT success, zero downtime
- AWS Modernization (DXC): Leading cloud-native transformation; 30% velocity improvement, AI-ready infrastructure
- Infrastructure Transformation (UBS): 13,000+ systems modernized; 99.2% data integrity, 40% cost reduction
- ERP Integration (PepsiCo): SAP/Ariba implementation across 15 markets; on-time, on-budget delivery

## TECHNICAL SKILLS

Cloud & Infrastructure: AWS (ECS, Lambda, S3, RDS), GCP (Cloud Run, BigQuery, Dataflow), Azure, Terraform, Docker, Kubernetes, CI/CD

Program Management: JIRA, Confluence, ServiceNow, MS Project, Azure DevOps, Agile/Scrum, SAFe, Waterfall, ITIL

Integration & Data: REST APIs, microservices, ETL/ELT, SQL, Oracle, PostgreSQL, Big Data (200TB+), ERP systems (SAP)

Development: Java, Python, .NET, Angular, JavaScript, Shell scripting
